ABOUT US

Ruha Refined Oil has adopted the basic philosophy of always moving towards the better by using the elements of mind, science, health and technology since the day it was founded.

A top management that does not lose its enthusiasm, the dynamism of its young staff and its production capabilities supported by solid personnel information contribute to RUHA YAĞ's making a difference in the sector day by day.

With over 12 years of extensive experience in international commodity trading through subsidiaries around the world, we have an annual supply capacity of 1,000,000 tons of raw and refined sunflower.

We show a significant activity in vegetable oil production and storage areas.

We work with fully integrated seed and vegetable oil processing facilities in Turkey, Malaysia and Europe.

In addition, together with our business partners, we have a smart pallet rack storage system with a monthly storage capacity of more than 5,000 euro pallets for vegetable oil.

We saw a gratifying welcome in overseas markets; Thanks to our competent staff who are closely involved in all stages from the trimming process to your tables.

PRODUCT DESCRIPTION

Refined oil production is one of the sub-sectors of the Manufacturing Industry according to the DPT Sector classification.

It is included in the Food Industry Sector under the Vegetable Oil and Products subheading.

Sunflower oil is derived from the *Helianthus Annuus* plant, the oil content of which varies between 39-45%.

It is an oil obtained from the seeds. Sunflower oil 15% saturated, 85% unsaturated fatty acids

It contains 14-43% oleic acid and 44-75% Linoleic acid of unsaturated fatty acids forms.

Sunflower oil can be consumed as liquid, and it is also common in margarine production.

used as. Sunflower oil is the second most produced oil in the world after soybean and palm oil.

It is an oilseed plant. The main countries where sunflowers are cultivated in the world; Ukraine, Russia, Argentina, Hungary, France, Spain, India and Turkey.

Oil packing formats:

1,2. In plastic packages of 5, 10 and 25 liters according to the following specifications.

All containers have a certificate of conformity for food use in contact with the palletized product on a standard 80 x 120 cm European pallet.

FOR 1 LITER PACKING DETAILS

WEIGHT : 960 Gram

Number of Bottles/Carton Box : 15

BOXES PER PALLET : 52

LITERS PER PALLET :780 liters

40 FT CONTAINER TAKES 24 EURO PALLETS.

LITERS PER CONTAINER :18720 Liters.

20 FT CONTAINER TAKES 11 EURO PALLETS.

LITERS PER CONTAINER :8580 Liters.

Custom design print labels and boxes for the bottles are available by request.

FOR 2 LITER PACKING DETAILS

WEIGHT : 1.840 Gram

Number of Bottles/Carton Box : 8

BOXES PER PALLET : 35

LITERS PER PALLET :560 liters

40 FT CONTAINER TAKES 24 EURO PALLETS.

LITERS PER CONTAINER :13440 Liters.

20 FT CONTAINER TAKES 11 EURO PALLETS.

LITERS PER CONTAINER :6160 Liters.

Custom design print labels and boxes for the bottles are available by request.

FOR 5 LITER PACKING DETAILS

WEIGHT : 4,680 Gram

Number of Bottles/Carton Box : 4

BOXES PER PALLET : 52

LITERS PER PALLET : 780 liters

40 FT CONTAINER TAKES 24 EURO PALLETS.

LITERS PER CONTAINER :18.720 Liters.

20 FT CONTAINER TAKES 11 EURO PALLETS.

LITERS PER CONTAINER :8580 Liters.

Custom design print labels and boxes for the bottles are available by request.
